3 of 3 review helpful Awesome book awful title By Nina Alter This is by far the book I most frequently recommend to folks who are just beginning to grok content creation for the web It is so different than sitting down to write a Word document and this book masterfully outlines the hows and whys around that in the most empowering way possible It

has saved me so much time going in to documents and re formatting every Redish has done her homework and created a thorough overview of the issues in writing for the Web Ironically I must recommend that you read her every word so that you can find out why your customers won t read very many words on your website and what to do about it Jakob Nielsen Principal Nielsen Norman Group ldquo There are at least twelve billion web pages out there Twelve billion voices talking but saying mostly nothing If just 1 of t Redish has done her homework and created a thorough overview of the issues in writing for the Web Ironically I must recommend that you read her every word so that you can find out why your customers won t read very many words on your website and what to
