0 of 0 review helpful Very Easy to Follow By Rlv Ordered it for Autocad class It is a very easy to understand and

comprehensive book However if you are using a Mac be prepared to do a little fiddling around to figure stuff out on your own The directions are for a PC and using a Mac is significantly harder Anyone can figure out how to do the stuff on their own on a Mac based on the directions in the book but it tak Get Up and Running with AutoCAD using Gindis rsquo s combination of step by step instruction examples and insightful explanations The emphasis from the beginning is on core concepts and practical application of AutoCAD in architecture engineering and design Equally useful in instructor led classroom training self study or as a professional reference the book is written with the user in mind by a long time AutoCAD professional and instructor based on what wor About the Author Elliot Gindis has used and taught AutoCAD in the New York City area since 1996 logging in well over 20 000 hours of screen time as a designer and consultant in a wide variety of architecture and engineering fields From 1999 to 2008 he was on s
