0 of 0 review helpful this is a good book but By jonathan okelley this is a good book though if you want the reference files and other files for the lessons in the book to date they are no longer available for download and the book does not come with a companion disc they were only available for download so if you need them I would think twice about buying

the book its self is a good one the seller I bought form sent a book in Features software workshops for 3ds Max Maya CINEMA 4D Lightwave and Softimage XSI Hot hotter hottest See how today s leading modeling artists create 3D characters that sizzle and get the techniques you ll need to create your own virtual vixens Steven Stahlberg Liam Kemp Marco Patrito and Sze Jones from Blur Studio are just a few of the 3D artists who share their secrets for making the fantasy females you About the Author is the owner of the Vreel 3D Entertainment production studio in Germany a member of the CINEMA beta team and a freelance trainer for MAXON products He develops CINEMA 4D plug ins and serves as a forum community leader for creativecow net and
