1 of 1 review helpful Good but not Great By Terah Mauricio When I first saw this book I thought about how relatively thin this book was for amount of information it was claiming to teach you The Pictures was very large colorful and well illustrated but at the same time the text is very small to make room for the large images thus not providing the best detail on how get things done 1 of 2 review helpful Need to get results with 3ds max fast Why take months to

learn every button in 3ds max when you can create great visuals with just a few key tools Learn to create quick yet stunning special effects and animated characters with the fastest techniques possible Need convincing grass trees water shadows You can use the memory hogging methods that choke your display and take forever to render or you can get it done bing bang with this book When you need an animated Praise for current version Max 2009 My first impression was WOW and my second impression was This is what reference material should look like The balance between illustration and text is just right for visual people 3D artists will love it Bo
