**By A. Ravishankar Rao : A Taxonomy for Texture Description and Identification (Springer Series in Perception Engineering)**

a taxonomy for texture description and identification springer series in perception engineering a ravishankar rao on abebooks a taxonomy for texture description and identification springer series in perception engineering 9780387973029 by a ravishankar rao and a A Taxonomy for Texture Description and Identification (Springer Series in Perception Engineering):

0 of 0 review helpful A must read for anyone in image processing By Customer This book is cited in almost every paper on image processing and texture A must for those interested in the field A central issue in computer vision is the problem of signal to symbol transformation In the case of texture which is an important visual cue this problem has hitherto received very little attention This book presents a solution to the signal to symbol transformation problem for texture The symbolic de scription scheme consists of a novel taxonomy for textures and is based on appropriate mathematical models for different kinds of texture The taxonomy classifies te
