**By Evren Samur : Performance Metrics for Haptic Interfaces (Springer Series on Touch and Haptic Systems)**

a haptic touch sensation is simulated 2009 and symposium on haptic interfaces for virtual environment and instrumentation and systems springer pp 305 320 high fidelity haptic and visual rendering for patient specific blevins nh et al providing metrics and performance the haptic interface controls a Performance Metrics for Haptic Interfaces (Springer Series on Touch and Haptic Systems):

Haptics technology is being used more and more in different applications such as in computer games for increased immersion in surgical simulators to create a realistic environment for training of surgeons in surgical robotics due to safety issues and in mobile phones to provide feedback from user action The existence of these applications highlights a clear need to understand performance metrics for haptic interfaces and their implications on device design use an From the Back Cover Haptics technology is being used more and more in different applications such as in computer games for increased immersion in surgical simulators to create a realistic environment for training of surgeons in surgical robotics due to safet
