series kindle edition by andrew crabtree mark rouncefield peter tolmie download it once and read it on Doing Design Ethnography (Human-Computer Interaction Series):

Ethnography is now a fundamental feature of design practice taught in universities worldwide and practiced widely in commerce. Despite its rise to prominence, a great many competing perspectives exist and there are few practical texts to support the development of competence. Doing Design Ethnography elaborates the ethnomethodological perspective on ethnography, a distinctive approach that provides canonical studies of work in and for design. It provides From the reviews "The book is aimed at practitioners and students. hellip the book does actually include some good practical tips on approaches and tools for gaining access to a work situation, gaining trust and approval of users, and recording observ
