**By Zhen Wen, Thomas S. Huang : 3D Face Processing: Modeling, Analysis and Synthesis (The International Series in Video Computing)** the kluwer international series in video computing 3d face processing modeling analysis

and synthesis vi 3d face processing modeling analysis and synthesis vision related books including online books and 3d face processing modeling analysis and springer international series in video computing 3D Face Processing: Modeling, Analysis and Synthesis (The International Series in Video Computing):

3D Face Processing Modeling Analysis and Synthesis introduces the frontiers of 3D face processing techniques It reviews existing 3D face processing techniques including techniques for 3D face geometry modeling 3D face motion modeling and 3D face motion tracking and animation Then it discusses a unified framework for face modeling analysis and synthesis In this framework the authors present new methods for modeling complex natural facial motion
