lightwave 3d 8 character Lightwave 3D 8 Character Animation:

5 of 5 review helpful Disappointing By Sensitive Male Indie Rock Fan This book is 482 pages long and the second half of it is not Lightwave or even 3D specific general concepts of animation like follow through squash and stretch etc Everything in this section has been said before and more eloquently in many other books on the topic of animation The first half which IS Lightwave specific is a step by Companion CD included with exercises and practice scenes LightWave 3D is one of the most popular 3D packages on the market today offering the most complete set of tools the best looking and fastest out of the box renderer and one of the most powerful IK engines available Professional director and animator Timothy Albee updates the best selling LightWave 3D 7 Character Animation with discussions of advanced animation tools facial animation and IK Booster In addit About the Author Timothy Albee has worked in the entertain ment industry since 1990 as a writer director animator concept artist producer and studio owner executive His credits include Walt Disney Feature Animation Warner Brothers Infogrammes Babylon 5
