0 of 0 review helpful A fine Linux reference By A Customer Mr Barkakati has done a great job with this book but like all books concerning any operating system it is far from complete Having said that I don t think that was Mr Barkakati s intention It s a good reference manual and should be one of many Linux books on your shelf if you re on the Linux road to peaceful bliss and contentment Definitely worth t In addition to providing expert advice for installation and

setup of Linux this book uncovers little known or undocumented information on the best ways to use Linux for specific business purposes Naba Barkakati takes readers on a real world tour of Linux focusing on the ways Linux is used daily
