4 of 5 review helpful Good but use with caution By Brian The reason this book is worth the money is because it s focus on Actionscript which brings the users knowledge further than other books can I have learned from this book but as one of the other reviews mentioned It seems that this book was rushed out My problem with the book is the flash files themselves There are some samples that have unnecessary or duplicated ActionScript for Flash 5 is a quantum

leap from previous versions of this scripting language for Flash Using ActionScript the Flash 5 developer can add interactive functionality like never before and this book explains and shows with plenty of projects and examples how to get the most out of Flash 5 using ActionScript The book covers all major concepts in ActionScript for Flash 5 including the actions statements operators which have changed significantly from previous ActionScripting in a Flash movie can mean the difference between a simple animation and a fully interactive game or interface If you have used Flash 4 or 5 s basic actions and now feel ready to expand your arsenal of coding this would be the book for you
