6 of 6 review helpful Much needed book By go vegan Besides being the only Carrara book available besides the manual this is still a great book The author also wrote a Carrara 3 book which has alot of the same wording but the tutorials are different so I recommend having both of them The manual that comes with Carrara tells you what the program can do and the basic steps to do it but this book tells you step by step Whether you are a new or seasoned user

you'll find everything you need to get started with Carrara 5 in The Carrara 5 Pro Handbook This edition has been completely updated to teach everything you need to know about Carrara especially many of the new and advanced features Explore new and creative ways to use Carrara through a great collection of step by step tutorials written by industry experts including two bonus comprehensive modeling tutorials with Eovia's newest Acknowledgments Preface PART I UNDERSTANDING 3D Chapter 1 Concepts and Techniques in 3D Modeling Chapter 2 3D Texturing Techniques Chapter 3 3D Animation Making Things Move PART II GETTING TO KNOW CARRARA Chapter 4 Exploring The Carrara Workspace Chapter 5 Wor
