17 of 18 review helpful Using Blender is finally possible By C Young I liked the idea of a free 3D graphics tool

especially considering similar programs cost thousands of dollars but Blender's user interface was completely baffling. This book opened up the world of Blender to me. It is a great book explaining how to successfully use this great program. Blender's interface seems well thought out and very useful. Blender is a fast, powerful, and free 3D graphics and animation tool. The Blender Book shows you how to use Blender efficiently and creatively with clear step-by-step tutorials that teach all aspects of this often tricky program. You'll learn how to enhance your Web sites, graphic designs, and videos with the 3D graphics and animations you'll create in Blender. The Blender Book is a nifty mix of tricks and scripts—guaranteed to keep your digital kitchen spinning. Dingbat Magazine. This book is aimed at those who are looking for a cheap, fast, and practical introduction to
