8 of 9 review helpful Not really for Maya 4 5 By M Hughes This book is pretty much what you would expect It is a series of Maya tutorials which cover the essentials modeling dynamics etc It has some pretty good quality color pictures as well which is always a plus It even comes with a disc which includes Maya PLE 4 5 which is nice The problem with the book is there are none of the new 4 5 features included This bo Instant Maya 4 5 is now available for retail purchase Can rsquo t keep track of the documentation you received with your commercial copy of Maya Complete or Maya Unlimited Now you can pick up an extra copy of the perfect documentation manual to help support

your learning process This book is an excellent resource to have on your bookshelf if you are Maya user With this book you will explore Polygonal Modeling NURBS Modeling Subdivision Surfaces
