8 of 8 review helpful Finally a book that covers dynamics By Jonathan D Moore I have owned Maya Unlimited for almost a year now and have had nothing but headaches trying to learn the Dynamics in Maya This book is a welcoming site to sore eyes It covers most dynamics and is very well put together The only complaint that I have which I have with most of Maya s books is that the step by step instructions are hard Maya Unlimited is a high end

version of Maya offering special tools for creating fluids cloth fur and hair Beautifully illustrated this is an official guide created by Alias the maker of Maya Now updated to cover the most recent enhancements to cloth and long hair tools Combining theory with practice the book offers practical step by step tutorials that make complex topics easy to grasp The DVD includes chapter by chapt About the Author Alias Toronto is the company that produces Maya software and other applications for the entertainment and high end design industries Alias s Learning Tools division publishes its own books and DVDs Alias s recognizable industry custom
