Autonomous Robotics and Deep Learning (SpringerBriefs in Computer Science):

0 of 0 review helpful Covers basics of AI and statistics well and talks By Programmer_boy Covers basics of AI and
statistics well and talks about research in the field of robotic warfare using a humanoid robot 0 of 1 review helpful
they seem to produce very good results By Programmer_boy Covers the basics of machine learning and statistics and
then embarks on t This Springer Brief examines the combination of computer vision techniques and machine learning
algorithms necessary for humanoid robots to develop ldquo true consciousness rdquo It illustrates the critical first step
towards reaching ldquo deep learning rdquo long considered the holy grail for machine learning scientists worldwide
Using the example of the iCub a humanoid robot which learns to solve 3D mazes the book explores the challenges to
create a robot tha
