**By Anna Petrasova, Brendan Harmon, Vaclav Petras, Helena Mitasova : Tangible Modeling with Open Source GIS** this book presents a new type of modeling environment where users interact with geospatial simulations using 3d physical models of studied landscapes multiple users tangible modeling with open source gis will appeal to advanced level students studying geospatial science computer science and earth science such as landscape Tangible Modeling

with Open Source GIS:

This book presents a new type of modeling environment where users interact with geospatial simulations using 3D physical models of studied landscapes. Multiple users can alter the physical model by hand during scanning, thereby providing input for simulation of geophysical processes in this setting. The authors have developed innovative techniques and software that couple this hardware with open source GRASS GIS, making the system instantly applicable to a wide
