Proceedings (Lecture Notes in Computer Science):

This book constitutes the refereed proceedings of the 8th International Conference on Functional Imaging and Modeling of the Heart held in Maastricht The Netherlands in June 2015 The 54 revised full papers were carefully reviewed and selected from 72 submissions The focus of the papers is on following topics function imaging models of mechanics and models of electrophysiology From the Back Cover This book constitutes the refereed proceedings of the 8th International Conference on Functional Imaging and Modeling of the Heart held in Maastricht The Netherlands in June 2015 The 54 revised full papers were carefully reviewed and sele
