The concept of CAST as Computer Aided Systems Theory was introduced by F Pichler in the late 1980s to refer to computer theoretical and practical developments as tools for solving problems in system science It was thought of as the third component the other two being CAD and CAM required to complete the path from computer and systems sciences to practical developments in science and engineering Franz Pichler of the University of Linz organized the first CAST works From the Back Cover This book constitutes the thoroughly refereed post proceedings of the 12th International Conference on Computer Aided Systems Theory EUROCAST 2009 held in Las Palmas de Gran Canaria Spain in February 2009 The 120 revised full papers pre
