Notes in Computer Science):

This book constitutes the proceedings of the 7th International Conference on Persuasive Technology PERSUASIVE 2012 held in Linköping, Sweden in June 2012. The 21 full papers presented together with 5 short papers were carefully reviewed and selected from numerous submissions. In addition, three keynote papers are included in this volume. The papers cover the typical fields of persuasive technology such as health, safety, and education. From the reviews, it is clear that this book would be of interest to researchers, faculty, and students from multiple disciplines who are interested in the use of persuasive technology and its application in healthcare, computer science, education, and social science.
