**From Springer : Autonomous Driving: Technical, Legal and Social Aspects** how can autonomous vehicles be integrated driving technical legal and social aspects individual and societal acceptance of autonomous driving autonomous driving technical legal and social aspects markus maurer j christian gerdes barbara lenz hermann winner on Autonomous Driving: Technical, Legal and Social Aspects:

This book takes a look at fully automated autonomous vehicles and discusses many open questions How can

autonomous vehicles be integrated into the current transportation system with diverse users and human drivers Where do automated vehicles fall under current legal frameworks What risks are associated with automation and how will society respond to these risks How will the marketplace react to automated vehicles and what changes may be necessary for companies ldquo The editors have done a superb job of locating the best of contributors to write chapters that cover virtually every personal and professional concern in this emerging field hellip I strongly recommend the book to any and all who have a vested inter
